# THE SCIENCE OF SUPERFEET

What started in a sports science lab in 1977 turned into a global foot support movement, and we've continued to push the boundaries of underfoot technology ever since. Superfeet are the most studied, tested, and scientifically validated insoles on the planet.

## A LOOK INSIDE SUPERFEET SHAPE

- 01** The rounded, structured design positions soft tissue under the heel for optimal shock absorption and anatomical cushioning.
- 02** Support placed right where you need it to enhance natural biomechanics, powering more efficient strides and reducing fatigue.
- 03** A powerful blend of geometry and materials intentionally designed to reinforce Superfeet shape, delivering a durable foundation under every step.

INTRODUCING

# SPORT ULTRALIGHT

Experience a light and powerful foundation with high-performance SuperRev™ foam and EVOLyte® carbon fibre-infused arch support. Engineered to be 25% lighter — so every step feels faster, smoother, and more effortless.

## FEATURES

Sizes: B-G | FL7867

- 01** Moisturewick™ top cover helps reduce odours
- 02** Contoured arch support enhances foot biomechanics
- 03** EVOLyte® carbon fibre cap for a light & powerful foundation
- 04** SuperRev™ foam delivers lightweight energy return
- 05** Sculpted heel secures the foot as you move

RRP: 60€

# ACTIVE CUSHION

Lightly structured support flexes and adapts to the foot's natural motion. Experience unbelievable comfort without changing how running shoes were built to perform.

## ACTIVE CUSHION LOW ARCH

Sizes: B-F | FL435100

## ACTIVE CUSHION MEDIUM ARCH

Sizes: B-F | FL435200

## ACTIVE CUSHION HIGH ARCH

Sizes: B-F | FL435000

- 01 Moisturewick™ top cover helps reduce odours
- 02 Responsive forefoot zone blends cushioning and rebound to maximise energy transfer
- 03 Aerolyte™ dual comfort layer helps your foot relax in the shoe and provides optimal cushioning
- 04 Patented Adaptive Comfort Technology™ flexes with the foot for efficient heel-to-toe turnover
- 05 Energising heel cushion disperses impact and reduces vibration to minimise fatigue

**RRP: 45€**

# ACTIVE SUPPORT

Get the most out of every run with the strong yet lightweight support and comfort of running insoles made with a responsive, carbon fibre-blended cap.

## ACTIVE SUPPORT LOW ARCH

Sizes: B-F | FL993200

## ACTIVE SUPPORT MEDIUM ARCH

Sizes: B-F | FL993300

## ACTIVE SUPPORT HIGH ARCH

Sizes: B-F | FL993400

- 01 Moisturewick™ top cover helps reduce odours
- 02 Two layers of Aerospring™ Rebound comfort foam deliver ultimate comfort in every step
- 03 EVOLyte® carbon fibre cap responds to compression, springing back to its original shape
- 04 Three arch heights provide orthotic support that helps stabilise the foot while running
- 05 Heel cup cradles the heel to optimise natural shock absorption and minimise fatigue

**RRP: 55€**

## ACTIVE WOMEN'S SUPPORT

Sizes: B-E | FL786500

- 01 Moisturewick™ top cover helps reduce odours
- 02 Two layers of Aerospring™ Rebound comfort foam deliver ultimate comfort in every step
- 03 EVOLyte® carbon fibre cap responds to compression, springing back to its original shape
- 04 Medium to high arch orthotic support helps stabilise the foot while running
- 05 Narrower, women's-specific heel cup positions and cradles the heel to optimise natural shock absorption and minimise fatigue

**RRP: 55€**

## RUN PAIN RELIEF

Sizes: B-F | FL786400

- 01 Moisturewick™ top cover helps reduce odours
- 02 Therapeutic foam cushions and protects the foot while reducing friction and hot spots
- 03 EVOLyte® carbon fibre cap responds to compression, springing back to its original shape
- 04 Deep heel cup cradles heel for added protection from repetitive stress
- 05 Independent heel stabiliser keeps the pain-relieving shape closer to the foot

**RRP: 60€**

# ALL PURPOSE

These versatile insoles deliver premium support with a firm foundation and help redistribute forces to reduce stress and strain on your entire body, not just your feet.

## ALL-PURPOSE SUPPORT LOW ARCH

Sizes: B-G | 34

## ALL-PURPOSE SUPPORT MEDIUM ARCH

Sizes: J-G | 24

## ALL-PURPOSE SUPPORT HIGH ARCH

Sizes: A-H | 14

- 01 High-density foam supports the whole foot for long-lasting comfort
- 02 Accommodating heel cup maximises natural shock absorption
- 03 Stabilizer cap provides structure and stability to the foam layer
- 04 Moisturewick™ top cover helps reduce odours and keeps feet fresh
- 05 A range of orthotic arch support helps stabilise the foot, reducing stress on feet, ankles, knees, and back

**RRP: 50€**

# HOCKEY

Superfeet Hockey insoles offer improved skate fit and enhanced comfort while minimising fatigue, friction, and blisters. Choose Hockey Cushion for flexible support and Aerospring™ comfort foam or Hockey Performance for up to 11% better acceleration and stabilising support infused with carbon fibre.

 **PRO SERIES**

## HOCKEY PERFORMANCE

Sizes: J-G | FL4808

### Up to 11% better acceleration on the ice

- 01 Angled midsole matches the profile of a skate to improve energy transfer to the ice
- 02 Aerolyte™ foam supports and cushions the foot
- 03 Responsive EVOLyte® carbon fibre stabiliser cap provides support, structure, and stability
- 04 Flybridge™ channels energy for quick starts, crisp stops, and tighter turns
- 05 Moisturewick™ top cover helps reduce odours and keeps skates fresh

**RRP: 60€**

## HOCKEY CUSHION

Sizes: J-F | FL4600

### Improved skate fit and enhanced comfort

- 01 Thin heel-to-toe profile designed specifically for skates Aerospring™ Glide comfort foam adds cushion and reduces foot fatigue
- 02 Contoured shape stabilises feet, minimising friction, blisters, and hot spots
- 03 Perforated forefoot improves air circulation and breathability
- 04 Moisturewick™ top cover helps reduce odours and keeps skates fresh

**RRP: 40€**

# WINTER

Made with gravity defying EVOLyte® carbon fibre that keeps its shape with every turn, these stabilising insoles deliver enhanced edge control and long-lasting comfort inside ski and snowboard boots.

## WINTER SUPPORT

Sizes: B-F | FL8100

**Enhanced fit and stability for comfort-fit boots**

**Two layers of Aerolyte™ comfort foam cushion your entire foot**

- 01 Thermal top cover adds warmth in cold temperatures
- 02 Moisturewick™ helps reduce odours
- 03 EVOLyte® carbon fibre stabiliser cap keeps its shape with every turn
- 04 Deep heel cup cradles your feet for a secure, stable boot fit

**RRP: 60€**

## WINTER THIN SUPPORT

Sizes: B-F | FL8101

**Thin profile for performance-fit boots**

**Thin, high density foam layer provides full-foot contact for stability inside your boots**

# EASYFIT®

Adding support to your casual and dress shoes doesn't get any easier. Upgrade your footwear with this patented orthotic design made to help ease aches and pains, combat foot fatigue, and keep you going all day long.

## EASYFIT® MEN'S

Sizes: C-G | 860

**Fits great in men's dress, casual, and everyday shoes with a heel height of 1 inch or less**

## EASYFIT® WOMEN'S

Sizes: B-E | 870

**Fits great in women's dress, casual, and everyday shoes with a heel height of 1 inch or less**

- 01 No trimming required – easy to fit and wear
- 02 Slim design won't crowd toes in tight-fitting footwear
- 03 Slip-resistant ridges anchor the insole in place
- 04 Moisturewick™ top cover helps reduce odours and keeps feet fresh
- 05 Microsuede top reduces friction and rubbing to help prevent blisters

**RRP: 30€**

**ME3D**

3D-PRINTED INSOLES

# YOUR BEST MOVE YET

Using cutting-edge innovations in dynamic data capture and 3D-printing technology, Superfeet ME3D insoles deliver personalised shape and support that responds and adapts to the unique way each foot moves. One-of-a-kind support for your customers; a no-inventory solution for your business.

**ME3D**

Sizes: B-G

Thin high-density foam for a slimmer fit

**ME3D** MAX

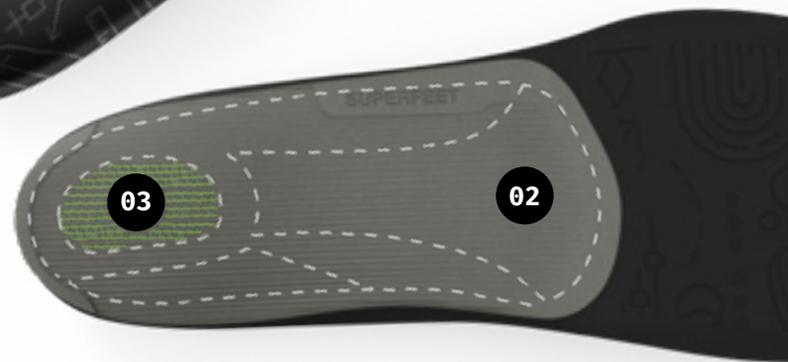

Sizes: B-G

Premium dual-layer cushioning for plush support

## PERSONALISATION FEATURES

- 01 CUSTOM ARCH SUPPORT PROFILE**  
Created to match the geometry of each foot for truly personalised support
- 02 ENHANCE NATURAL MOTION WITH FIVE ZONES**  
Independently tuned to adapt and respond to the unique way your customer moves
- 03 DIRECTIONAL FLEX LINES**  
Calibrated to each foot's dynamic pressure pattern to facilitate easy heel-to-toe transition

★  **MADE IN THE USA**

# fitPOD™

The Superfeet Custom fitPOD is our most advanced, portable and easy to use custom insole centre made to date. You can now provide a complete non-weight bearing solution for Superfeet custom moulded insoles from anywhere in the store in as little as 15 minutes.

**Adjustable Leg Cradle:** Supports the ankle and helps keep the leg in proper position during the customisation process.

**Laser Alignment:** Ensures quick and easy positioning of the foot into a subtalar neutral position with more accuracy.

**Met-Bar:** Helps stabilise the midtarsal joint throughout the customisation process for the most accurate moulding.

**Access Bin:** Provides quick access to all of the BioVac accessories needed during the customisation process. The BioVac hose and foot pedal control are easy to use and then store for transport.

**Response-Glide Steering:** Two large easy-glide front wheels assist with smooth transport. Rear 360 degree rotating pivot wheel ensures quick and easy micro-adjustments side to side. Rear extension handle provides an easy grip for both adjusting and transport.

# CUSTOM

Custom Superfeet insoles are ideal to ensure the perfect pair of insoles for every kind of feet.

## CARBON ALL-SEASON THIN

Sizes: B-F | CU739400

- 01 Lightweight, high-density foam layer
- 02 Heel cup for shock absorption
- 03 Heat moldable stabiliser cap
